

**DURABLE SELF-CLEANING FILTER MATERIAL
NO REPLACEMENT NECESSARY!**

incl. Dirt Collector

Holding cross:
Stainless steel

Edge sealing:
Robust design

Perforated plate:
Purified air outlet

Cascade body:
For adsorption of the odorants.
Durable self-cleaning filter material
-> no replacement necessary

Odor Control System

Uni-AdSorber

for inspection shafts

Why Uni-AdSorber:

- Saves money in the long term, because there are no consumables
- Can be ordered individually for each manhole
- Sever ventilation still exists
- Pro Tip: Uni-AdSorber as a perfect add-on for dosing, especially for short peak loads

Advantages:

- Reduction/prevention of odor by self-regenerating filter material
- No change of the filter material necessary
- Easy installation and dismantling
- Dirt collector included in the scope of delivery
- Low maintenance, cleaned with water only
- Surface water permeable
- Special applications (e.g. for aggressive media in industry) possible on request
